EXPERIENCE

Employability.life – XPro Program

AI/ML Project Trainee – Cancer Risk Prediction

Remote

Dec 2025 - Feb 2026

- Developed and optimized a machine learning model for cancer risk prediction using Python and Scikit-learn.
- Performed data cleaning, feature engineering, and preprocessing on structured datasets to improve model performance.
- Evaluated model accuracy using performance metrics (precision, recall, F1-score) and generated analytical reports.
- Authored System Requirement Specification (SRS) and project documentation; presented final project findings.
- **Tech Stack:** Python, Pandas, NumPy, Scikit-learn, Matplotlib, Jupyter Notebook, Git

PROJECTS

BusTrack – College Bus Management App

- Built a real-time student tap-in system for college bus stops with live headcount visible to drivers instantly.
- Implemented GPS geofencing (50m radius) to validate student presence at stop before allowing tap-in, preventing fake check-ins.
- Designed driver dashboard with live stop-wise student counts and "Picked Up" reset functionality.
- **Tech Stack:** React Native, Expo, Firebase Firestore, expo-location, JavaScript

Online Compiler

- Built a web-based online compiler supporting multiple languages including Python, JavaScript, and HTML for real-time code execution in the browser.
- Implemented a code editor with syntax highlighting and instant output display for seamless development experience.
- Developed a clean, responsive UI with split-panel layout for editor and output, enhancing usability across devices.
- **Tech Stack:** React.js, Node.js, MongoDB, Tailwind CSS

TECHNICAL SKILLS

Programming Languages: C, Python

Technologies: Html, CSS, Node.js, Express.js, AWS services, linux Ubuntu, Docker

Version control : Git and Github

Databases: MongoDB, MySql

Soft Skills: Resolving Problems, Learning Quickly, Accepting Feedback, Time Management, Team Collaboration, Effective Communication, Growth Focused, Responsibility, Risk management, Flexibility.

INVOLVEMENT

Google – Student Ambassador

(Sep-Dec 2025)

- Represented Google initiatives on campus; promoted tools and student programs; coordinated technical events and strengthened student–industry engagement.

Indian Society for Technical Education (ISTE) – Organising Team

- Coordinated the 19th ISTE Karnataka State-Level Student Convention and managed multiple technical events, ensuring smooth execution through effective collaboration with students and faculty.

Youth Red Cross Wing (YRCW) – Volunteer

- Organized and supported blood donation camps and organ donation awareness drives under the (YRCW), assisting in coordination, donor registration, and community outreach activities.

EDUCATION

PES College of Engineering, Mandya

Information science and Engineering, BE - C.G.P.A - 7.35/10

2023- 2027

Anweshana PU College, Mysore
